

IMPROVE ANY PROJECT, ANY PROCESS

For just about any use case, Objective Connect enhances and streamlines the intersection of people, content and process.

Secure, private workspaces | Single Source of Truth | Government Grade Security

EMERGENCY PLANNING & RESPONSE

Administer a universal system for the planning, response and recovery phases of an emergency.

MINISTERIAL CORRESPONDENCE

Eradicate paper and add auditability of every ministerial process, even when recipients are outside of the network.

MARKETING & MEDIA COMMUNICATION

Individual digital workspaces to collaborate with external agencies, creatives and legal teams for any event or campaign.

FOI REQUESTS

Expedite responses to FOI requests, collate and provide access to relevant information to agreed parties in a secure online location.

HR & STAFF ONBOARDING

Same-day onboarding of all new hires – offers, contract, OH+S Compliance and more.

LEGAL TRANSMITTAL

Secure, electronic transmittal of contracts or large case files for input from external parties or reference when off site.

TENDERING & PROCUREMENT

Implement a single source of truth – an online workspace to manage every third-party service provider.

BUILDING APPLICATION APPROVALS

Move the assessment process online for building approvals – invite owners, developers and assessors to contribute via the cloud.

BUSINESS CONTINUITY PLANNING

Business continuity plans that are always up-to-date and available – from anywhere and on any device.

EXEC & COMMITTEE PAPER DISTRIBUTION

Enable digital distribution of executive and committee papers in seconds.

IMPROVE ANY PROJECT, ANY PROCESS

ADOPTION & FOSTER CARE

Collate, share, and collaborate on sensitive information required for adoption services and panels.

CHILD SAFE-GUARDING

Instant sharing of information with approved health care, social welfare, housing officers, police or other relevant agencies when a child is at risk.

PATIENT EPISODE MANAGEMENT

Ensure transparency and speed during the referral process, provide a single view of the patient's medical record for health care providers.

SECURITY CLEARANCE VETTING

Reduce the average time to complete security assessments. Handle increasing number of assessments in an easier and more efficient online process.

ENVIRONMENTAL GUIDANCE & ADVICE

Collaborate with environmental agencies to collect data on development impact, or assess potential impact of a planned project.

URBAN REGENERATION

Remove duplication and eliminate communication bottlenecks by providing a virtual collaborative space for all relevant parties.

RESEARCH

Reach out to international research partners by creating secure virtual data rooms.

HELP DESK INCIDENTS

Eliminate breaches of customer information by securely sending and receiving customer data.

COMPLAINT MANAGEMENT

Discreet secure workspaces to receive information relating to a complaint. A detailed audit trail ensures all KPIs and SLA's are met and provable.

AUDIT & FUNDING APPROVALS

Centralise the collation and distribution of information required for audits and funding approval for a project.
